[Jiadé Organic Cosmetics](#) is a line committed to producing cosmetics that contain only certified organic ingredients.

Utilizing a holistic approach, all ingredients are certified organic and minimally processed without the use of chemicals.

The line contains no preservatives, instead maintaining freshness with the use of certain essential oils and sealed bottles.

Each product is packaged in a highly specialized glass bottle, manufactured in Switzerland, and designed to help extend the life of the product.

A portion of their proceeds goes toward sponsorship of children in underprivileged countries to provide improved health care, food, shelter and education.

I have been testing the Jiade moisturizers. The "mature skin moisturizer" is great under makeup. It's a little heavier and smooths on your skin wonderfully. The normal skin moisturizer has a little more oil and is great for everyday. It feels as though it's giving my skin more elasticity. And I love the night cream too.

Margo, United States
